

# Vescore Switzerland Accounting Based Index

## Index methodology

The Vescore Switzerland Accounting Based Index is part of the Vescore Switzerland Index Series. This suite of indices offers investors access to eight different equity indices based on the same investment universe. Each of the eight indices employs its own distinct weighting methodology.

The Vescore Switzerland universe is composed of the 50 largest companies listed on the SIX Swiss Exchange and is rebalanced on a quarterly basis. In order to be included in the universe, companies must fulfil minimum criteria in regard to trading volumes and free float of the stocks.

On each quarterly rebalancing date, the constituents of the Vescore Switzerland Accounting Based Index are weighted on the basis of their absolute values for four fundamental metrics (book value, earnings, revenue and dividends). The average over the last three years is applied for each of those metrics (with the exception of book value).

## Performance (in CHF, in %) <sup>1 4</sup>

## General information

<b>Universe</b>	Swiss Equities
<b>Number of constituents</b>	50 companies
<b>Launch date</b>	31.12.2013
<b>Inception value</b>	1,000
<b>History as of</b>	31.12.1997
