The Share classes or combinations may contain the additional denominations from "1" to "10". These Shares classes shall have the same architecture as the Share classes from which they have been derived, but shall have one or another feature distinguishing them from the Share Classes from which they have been derived. Such special feature may include distributors who are domiciled in certain countries.

IMPORTANT: Retail share class N

Retail share class N and its combinations (e.g. N, AN, HN, AMHN, AQN) do not grant any rebates or retrocessions. But they are considered to calculate the minimum size to be eligible for rebates or retrocessions and/or volume thresholds.
