Vontobel Fund - Multi Asset Solution B, EUR

Morningstar Rating as of 31.05.2026 ★★ ★

Marketing document for retail investors in: CH

Investment objective

This actively managed multi-asset fund aims to achieve steady capital growth.

Key features

While respecting risk diversification, the fund invests worldwide across asset classes, predominantly in bonds, notes, and similar interest-bearing securities, of sovereign and corporate issuers, besides equities, equity-like transferable securities, and indirect alternative investments like real estate or commodities. Specific limits apply for the equity and alternatives asset classes, for securities from issuers outside the OECD, and for certain instruments, including CoCo bonds, ABS, and MBS. The fund may also invest in currencies via derivatives. The fund uses no benchmark.

Approach

The investment team combines proprietary quantitative models with qualitative research for asset allocation and identifying the most promising opportunities. It considers specific sustainability criteria in assessing potential investments, promoting environmental and/or social characteristics. It adjusts the portfolio flexibly in line with changing markets, striving to seize opportunities and control risk.

Risks

Investing in the Sub-Fund implies the following risks which are described in detail in the section "Risks" of the Sales Prospectus. The table below explains which risks are specifically related to the Sub-Fund and could affect an investment in the Sub-Fund.

Investment Fund Risks	Investment Management Risks	Other Risks
– Performance Risk – Market Risk – Operational Risk – Liquidity Risk	– Equity Risk – Fixed Income Risk – Credit Risk – Interest Rate Risk – High Yield Investment Risk – ABS/MBS/CLO Risk – Alternative Asset Class Investment Risk – Financial Derivative Instruments Risks – Leverage Risk – Emerging Markets Risk – Currency Risk – Currency Trading Risk – ESG Strategy Risk	– Volatility Trading Risk – Sustainability Risk

Any of these risks could cause a Sub-Fund to lose money, to perform less well than similar investments, to experience high volatility of the Share price, or to fail to meet its investment objective over any period of time. It cannot be guaranteed that the investor will recover the capital invested.

Glossary

Asset class is a group of financial instruments with similar attributes, such as cash, money market, equities or bonds. The asset class is important in categorizing funds by type of investments. **Distribution policy** of a fund defines the dividend distribution for its share classes to investors. Accumulating share classes reinvest the income received from the fund holdings back into the fund and do not distribute to shareholders. Distributing shares typically make cash payments to shareholders on a periodic basis. **Equity exposure** illustrates the proportion of a fund that is invested in stocks (equities) and is usually expressed in percentage form. **ESG rating** is provided by MSCI and aims to measure a company's management of financially relevant ESG risks and opportunities. They use a rules-based methodology to identify industry leaders and laggards according to their exposure to ESG risks and how well they manage those risks relative to peers. The ESG rating of MSCI ranges from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC). **ESG score** is provided by MSCI and is a measurement of a company's level of sustainability. The calculation is based on many factors and is measured on a scale range, e.g. from 0 (very poor) to 10 (very good). **ISIN** (International Securities Identification Number) is a unique code that identifies a specific financial security. It is assigned by a country's respective national numbering agency (NNA). **Management fee** is a fee which covers the costs charged to a fund relating to portfolio management services and, if applicable, to distribution services. **Net Asset Value (NAV) / share** also known as the share price of a fund, represents the value per share of the fund. It is calculated by dividing the fund's assets less its liabilities by the number of shares outstanding. For most funds it is calculated and reported daily. **Ongoing charges** expresses the sum of the costs of running a fund on an ongoing basis, like the management fee and various legal and operating costs. It is calculated retroactively over a period of 12 months as a percentage of the fund assets. If the available data is insufficient, for example, for newly launched funds, ongoing charges may be estimated using data from funds with similar characteristics. **Share class** is a compartment of a fund with a distinct client type, distribution policy, fee structure, currency, minimum investment, or other characteristics. The characteristics of each share class are described in the fund prospectus. **Sharpe ratio** measures excess return per unit of risk. The ratio is the average return earned in excess of the risk-free rate per unit of volatility. A portfolio with a higher Sharpe ratio is considered superior relative to its peers. **Swing Pricing eligible** is an industry standard mechanism to protect long term investors in a fund against trading costs occurring when investors enter or exit the fund. This is achieved by adjusting the NAV upwards or downwards respectively so that the

additional trading costs caused by subscriptions or redemptions are borne by investors trading in the fund. Full details of the Swing Pricing mechanism are given in the fund prospectus. **VALOR** is an identification number issued by SIX Financial Information and assigned to financial instruments in Switzerland. **Volatility** measures the fluctuation of a fund's performance over a certain period. It is most commonly expressed using the annualized standard deviation. The higher the volatility, the riskier a fund tends to be. **Weighted Average Carbon Intensity (WACI)** reports the carbon emissions of companies held in a portfolio relative to the revenues they generate, excluding emissions from supply chains and products / services. **WKN** (or Wertpapierkennnummer) is an identification code of securities registered in Germany, issued by its Institute for Issuance and Administration of Securities. **Yield to maturity (YTM)** measures the return of the fund if all the bonds in the portfolio of the fund were held to maturity. The ratio is expressed as an annual return in percent.

Important information

This marketing document was produced by one or more companies of the Vontobel Group (collectively "Vontobel") for retail clients for distribution in AT, CH, DE, ES, IT, LU.

This document is for information purposes only and does not constitute an offer, solicitation or recommendation to buy or sell shares of the fund/fund units or any investment instruments, to effect any transactions or to conclude any legal act of any kind whatsoever. Subscriptions of shares of the fund should in any event be made solely on the basis of the fund's current sales prospectus (the "Sales Prospectus"), the Key (Investor) Information Document ("KIID"), its articles of incorporation and the most recent annual and semi-annual report of the fund and after seeking the advice of an independent finance, legal, accounting and tax specialist. Furthermore and before entering into an agreement in respect of an investment referred to in this document, you should consult your own professional and/or investment advisers as to its suitability for you. Furthermore and before entering into an agreement in respect of an investment referred to in this document, you should consult your own professional and/or investment advisers as to its suitability for you.

Neither the fund, nor the Management Company nor the Investment Manager make any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of an assessment of ESG research and the correct execution of the ESG strategy. As investors may have different views regarding what constitutes sustainable investing or a sustainable investment, the fund may invest in issuers that do not reflect the beliefs and values of any specific investor.

Past performance is not a reliable indicator of current or future performance. Performance data does not take into account any commissions and costs charged when shares of the fund are issued and redeemed, if applicable. The return of the fund may go down as well as up due to changes in rates of exchange between currencies. The value of the money invested in the fund can increase or decrease and there is no guarantee that all or part of your invested capital can be redeemed.

Interested parties may obtain the above-mentioned documents free of charge from the authorised distribution agencies and from the offices of the fund at 17, Boulevard de Kockelscheuer, L-1821 **Luxembourg**. Refer for more information on the fund to the latest prospectus, annual and semi-annual reports as well as the key (investor) information documents ("KIID"). These documents may also be downloaded from our website at vontobel.com/am. A summary of investors rights (including information on representative actions for the protection of the collective interests of consumers under EU Directive 2020/1828) is available in English under the following link: www.vontobel.com/vamsa-investor-information. Vontobel may decide to terminate the arrangements made for the purpose of marketing its collective investment schemes in accordance with Article 93a of Directive 2009/65/EC. the representative in **Switzerland**: Vontobel Fonds Services AG, Gotthardstrasse 43, 8022 Zurich, the paying agent in Switzerland: Bank Vontobel AG, Gotthardstrasse 43, 8022 Zurich, the European facilities agent for **Germany**: PwC Tax and Advisory, Société coopérative - GFD, 2, rue Gerhard Mercator, L-2182 Luxembourg, Email: lu_pwc.gfd.facsvs@pwc.com, <https://gfdplatform.pwc.lu/facilities-agent/view/vf-de>; the facilities agent in **Austria**: Erste Bank der oesterreichischen Sparkassen AG, Am Belvedere 1, A-1100 Vienna.
