

Fund Factsheet / 30.06.2026

Vontobel Fund - TwentyFour Sustainable Short Term Bond Income G, GBP

Morningstar Rating as of 31.05.2026 ★★★★★

Marketing document for institutional investors in:
CH, GB, LI, LU, SG (professional investors)

Investment objective

This actively managed bond fund aims to achieve a positive total return over 3 years, with annual volatility not exceeding 3%, and has a sustainable investment objective.

Key features

While respecting risk diversification, the fund invests worldwide mainly in bonds and similar interest-bearing securities of corporate issuers rated investment grade (S&P credit ratings AAA to BBB-, or similar). In adverse markets, it may be invested in full in such securities of sovereign issuers. Specific limits apply for certain instruments, including CoCo bonds, ABS, and MBS. At least 80% of the fund's net assets shall be sustainable investments with mainly an environmental objective. The fund considers specific sustainability criteria and exclusion screens in assessing potential investments. The residual maturity of the bonds held in the portfolio shall not exceed 5 years, and the average portfolio maturity shall not exceed 3.5 years. The fund uses no benchmark. The investment team has full discretion.

Approach

The investment team identifies relative-value opportunities based on rigorous research. It flexibly adjusts the portfolio, striving to benefit from both rising and falling interest rates.

Investment manager	TwentyFour Asset Management LLP
Fund domicile, legal structure, SFDR	Luxembourg, UCITS, Art. 9
Currency of the fund / shareclass	GBP / GBP
Launch date fund / shareclass	22.01.2020 / 22.01.2020

Geographical breakdown (%)

Calculated on a direct exposure basis.

Credit ratings breakdown (%)

For non-rated sovereign bonds, the issuing sovereign's rating will be applied.

Maturity breakdown (%)

Calculated as the expected maturity date or call date or as the weighted average life for amortising Asset Backed Securities.

Sector breakdown (%)**Risks**

Investing in the Sub-Fund implies the following risks which are described in detail in the section "Risks" of the Sales Prospectus. The table below explains which risks are specifically related to the Sub-Fund and could affect an investment in the Sub-Fund.

Investment Fund Risks	Investment Management Risks	Other Risks
– Performance Risk – Market Risk – Operational Risk – Liquidity Risk	– Fixed Income Risk – Credit Risk – Interest Rate Risk – Contingent Convertible Bond Risk – Financial Derivative Instruments Risks – Emerging Markets Risk – Currency Risk – Currency Trading Risk – ESG Strategy Risk	– Sustainability Risk

Any of these risks could cause a Sub-Fund to lose money, to perform less well than similar investments, to experience high volatility of the Share price, or to fail to meet its investment objective over any period of time. It cannot be guaranteed that the investor will recover the capital invested.

Glossary

Average Maturity indicates the length of time until the initial investment amount of a bond is due to be repaid. "Average maturity" is calculated on a bond portfolio by weighting each bond's residual maturity by its relative size. **Average Rating**, or credit rating, assesses a bond issuer's ability to repay on time all its debt (interest and principal). High ratings, like AAA or Aaa, indicate low risk (i.e., low probability of default), while ratings such as BBB- or Baa3 indicate a higher risk. **Collateralised debt obligation (CDO)** is a structured finance product backed by a pool of debt assets, such as mortgage-backed securities (MBS), asset-backed securities (ABS), collateralized bond obligations (CBOs) and collateralized loan obligations (CLOs). Typically these structures pool cash flows from the underlying assets and then pay investors based on their seniority, so that investors in more senior tranches of the CDO receive their payments first, while investors in the most junior tranches suffer any losses first. **Collateralised loan obligation (CLO)** is a type of CDO which involves pools of corporate loans, refinanced in a securitized structure. **Credit default swap (CDS)** is a derivative financial instruments which allows an investor to offset default risks. Similar to an insurance contract, if an investor buys a CDS on a security, the investor is reimbursed by the counterparty if the security defaults within a certain period. **Credit-spread duration**, or credit duration, or spread duration, is a measure of the sensitivity of the price of a bond to a change in credit spreads. **Current yield** is the %-return on a bond investment, calculated as the interest payments expected from the bonds if hold for one year, divided by the current prices of the bonds. **Distribution policy** of a fund defines the dividend distribution for its share classes to investors. Accumulating share classes reinvest the income received from the fund holdings back into the fund and do not distribute to shareholders. Distributing shares typically make cash payments to shareholders on a periodic basis. **ISIN** (International Securities Identification Number) is a unique code that identifies a specific financial security. It is assigned by a country's respective national numbering agency (NNA). **Management fee** is a fee which covers the costs charged to a fund relating to portfolio management services and, if applicable, to distribution services. **Modified duration** is an adjusted version of Macaulay Duration and measures the percentage change in a bond price as a result of a change in yield. It is used to measure the sensitivity of a bonds cash flows to a change in interest rates and is more commonly used than Macaulay Duration. **Net Asset Value (NAV) / share** also known as the share price of a fund, represents the value per

share of the fund. It is calculated by dividing the fund's assets less its liabilities by the number of shares outstanding. For most funds it is calculated and reported daily. **Ongoing charges** expresses the sum of the costs of running a fund on an ongoing basis, like the management fee and various legal and operating costs. It is calculated retroactively over a period of 12 months as a percentage of the fund assets. If the available data is insufficient, for example, for newly launched funds, ongoing charges may be estimated using data from funds with similar characteristics. **Share class** is a compartment of a fund with a distinct client type, distribution policy, fee structure, currency, minimum investment, or other characteristics. The characteristics of each share class are described in the fund prospectus. **Swing Pricing eligible** is an industry standard mechanism to protect long term investors in a fund against trading costs occurring when investors enter or exit the fund. This is achieved by adjusting the NAV upwards or downwards respectively so that the additional trading costs caused by subscriptions or redemptions are borne by investors trading in the fund. Full details of the Swing Pricing mechanism are given in the fund prospectus. **VALOR** is an identification number issued by SIX Financial Information and assigned to financial instruments in Switzerland. **Volatility** measures the fluctuation of a fund's performance over a certain period. It is most commonly expressed using the annualized standard deviation. The higher the volatility, the riskier a fund tends to be.

Important information

This marketing document was produced by one or more companies of the Vontobel Group (collectively "Vontobel") for institutional clients for distribution in CH, GB, LI, LU, SG (professional investors).

This document is for information purposes only and does not constitute an offer, solicitation or recommendation to buy or sell shares of the fund/fund units or any investment instruments, to effect any transactions or to conclude any legal act of any kind whatsoever. Subscriptions of shares of the fund should in any event be made solely on the basis of the fund's current sales prospectus (the "Sales Prospectus"), the Key (Investor) Information Document ("KIID"), its articles of incorporation and the most recent annual and semi-annual report of the fund and after seeking the advice of an independent finance, legal, accounting and tax specialist. Furthermore and before entering into an agreement in respect of an investment referred to in this document, you should consult your own professional and/or investment advisers as to its suitability for you.

This document is directed only at recipients who are institutional clients, such as eligible counterparties or professional clients as defined by the Markets in Financial Instruments Directive 2014/65/EC ("MiFID") or similar regulations in other jurisdictions, or as qualified investors as defined by Switzerland's Collective Investment Schemes Act ("CISA").

Neither the fund, nor the Management Company nor the Investment Manager make any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of an assessment of ESG research and the correct execution of the ESG strategy. As investors may have different views regarding what constitutes sustainable investing or a sustainable investment, the fund may invest in issuers that do not reflect the beliefs and values of any specific investor.

Past performance is not a reliable indicator of current or future performance. Performance data does not take into account any commissions and costs charged when shares of the fund are issued and redeemed, if applicable. The return of the fund may go down as well as up due to changes in rates of exchange between currencies. The value of the money invested in the fund can increase or decrease and there is no guarantee that all or part of your invested capital can be redeemed.

Interested parties may obtain the above-mentioned documents free of charge from the authorised distribution agencies and from the offices of the fund at 17, Boulevard de Kockelscheuer, L-1821 **Luxembourg**.
