Variopartner SICAV - Tareno Global Water Solutions Fund R1, EUR

Marketing document for retail investors in: AT, CH, DE, ES, FR, GB, LI, LU

Investment Case

The investment theme water is based on long-term structural developments such as population growth, climate change, urbanization and technological change. These inescapable global megatrends offer increased opportunities for companies positioned along the water value chain to achieve growth above world GDP.

Investment Objective

This Sub-Fund has sustainable investment as its objective which consists of investing in water-sector companies worldwide complying with Environmental, Social and Governance (ESG) criteria set by the Investment Manager and aims to achieve capital growth. The Sub-Fund is categorized under Article 9 SFDR.

Sustainability

The theme fund focuses on a holistic sustainability approach. Companies that do not meet the minimum criteria are directly excluded with the help of a sustainability filter. The ESG scores calculated in the specially developed valuation model are directly incorporated into the investment process. Regular exercise of voting rights and active engagement round off the strategy.

Portfolio management	Tareno AG, Basel
Fund domicile, legal structure	Luxembourg, UCITS

Risks

- Limited participation in the potential of single securities.
- Investments in foreign currencies are subject to currency fluctuations.
- Success of single security analysis and active management cannot be guaranteed.
- It cannot be guaranteed that the investor will recover the capital invested.
- Derivatives entail risks relating to liquidity, leverage and credit fluctuations, illiquidity and volatility.
- Price fluctuations of investments due to market, industry and issuer linked changes are possible.
- Investment universe may involve investments in countries where the local stock exchanges may not yet qualify as recognised stock exchanges.
- The sub-fund's investments may be subject to sustainability risks. The sustainability risks that the sub-fund may be subject to are likely to have an immaterial impact on the value of the sub-funds' investments in the medium to long term due to the mitigating nature of the sub-fund's ESG approach.
- The sub-funds' performance may be positively or negatively affected by its sustainability strategy.
- There is a risk of inaccurately assessing a security or issuer based on inaccurate or incomplete data from third party ESG research data providers.
- Information on how sustainable investment objectives are achieved and how sustainability risks are managed in this Sub-Fund may be obtained from [Tareno-globalwatersolutionsfund.ch/en/sustainability-model/](https://tareno-globalwatersolutionsfund.ch/en/sustainability-model/).

Glossary

Benchmark: An index that is used to measure the performance of an investment fund with the purpose of tracking the return of such index or of defining the asset allocation of a portfolio or of computing the performance fees. **Beta:** A measure of sensitivity - given as the average percentage change in the price of a fund when the market (benchmark) rises or falls by 1%. A value over (under) 1 means that on average the fund exhibits more (less) volatility than the benchmark. The figure is calculated on a 3-yearly basis. **Duration (Modified Duration):** Duration is an indication of how much a bond's price could be affected by a change in interest rates. **Effective Duration:** Is a measure of the potential impact on a bond or portfolio price of a 1% change in interest rates across all maturities. **Hedging:** Where a Class of Shares is described as hedged ("Hedged Share Class"), the intention is to hedge the Net Asset Value in the Reference Currency of the Sub/Fund into the Currency of the Hedged Share Class. **Index:** Is a characteristic portfolio considered representative of a particular market or a portion of it, and serves as a performance measurement for such a market. An index, or combination thereof, used as reference for performance comparison, is then called "reference index". **Information ratio:** The information ratio (IR) is a ratio of portfolio returns above the returns of a benchmark to the volatility of those returns. **Jensen's Alpha:** Yield indicator. If the average return on a security or portfolio is larger than its expected return, the alpha is positive. If the average return is smaller than expected, the alpha is negative. **Management Fee:** Is a fee which covers all costs relating to possible services rendered in connection with investment management and distribution. Please refer to the fund's prospectus for a complete description. **NAV:** The Net Asset Value (NAV) represents the value per share. It is calculated by dividing the total net asset value of the fund (the value of the fund's assets less its liabilities) by the number of shares outstanding. **Ongoing charges:** Expresses the sum of the costs of running a fund on an ongoing basis, like management fee and various legal and operating costs. It is calculated retroactively over a period of 12 months as a percentage of the fund assets. When insufficient data is available, Ongoing Charges may be estimated using data of funds with similar characteristics. **Performance Fee:** The payment made to an Investment Manager if certain performance levels are achieved (often over and above any levels set out in the investment objective) within a set time period. Please refer to the fund's prospectus for a complete description. **Sharpe Ratio:** The Sharpe ratio indicates the additional reward per unit of risk compared to a risk/free investment. It reveals how much performance was achieved at what level of risk. **Tracking error:** Measure of the deviation of the return of a fund compared to the return of a benchmark over a fixed period of time. Expressed as a percentage. The more passively the investment fund is managed, the smaller the tracking error. **Volatility:** Volatility (or risk or standard deviation) is an indicator of the range of fluctuation of the annualized performance of a fund over a certain period. **Weighted Average Coupon (WAC):** The coupon is the annual interest rate paid by a bond issuer on the face value of the bond. **Yield to Maturity:** The rate of return anticipated on a bond if it is held until the maturity date. **Yield to Worst:** The lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making worst-case scenario assumptions on the issue by calculating the returns that would be received if provisions are used by the issuer.

Important information

This document is for information purposes only and does not constitute an offer, solicitation or recommendation to buy or sell shares of the fund/fund units or any investment instruments, to effect any transactions or to conclude any legal act of any kind whatsoever. Subscriptions of shares of the fund should in any event be made solely on the basis of the fund's current sales prospectus (the "Sales Prospectus"), the Key Investor Information Document ("KIID"), its articles of incorporation and the most recent annual and semi-annual report of the fund and after seeking the advice of an independent finance, legal, accounting and tax specialist. Furthermore and before entering into an agreement in respect of an investment referred to in this document, you should consult your own professional and/or investment advisers as to its suitability for you.

Past performance is not a reliable indicator of current or future performance. Performance data does not take into account any commissions and costs charged when shares of the fund are issued and redeemed, if applicable. The return of the fund may go down as well as up due to changes in rates of exchange between currencies. The value of the money invested in the fund can increase or decrease and there is no guarantee that all or part of your invested capital can be redeemed.

Interested parties may obtain the above-mentioned documents free of charge from the authorized distribution agencies and from the offices of the fund at 11-13 Boulevard de la Foire, L-1528 Luxembourg, the representative in Switzerland: Vontobel Fonds Services AG, Gotthardstrasse 43, 8022 Zurich, the paying agent in Switzerland: Bank Vontobel AG, Gotthardstrasse 43, 8022 Zurich, the paying agent in Germany: B. Metzler seel. Sohn & Co. KGaA, Untermainanlage 1, 60329 Frankfurt/Main, the paying agent in Liechtenstein: Liechtensteinische Landesbank AG, Städtle 44, FL-9490 Vaduz, the paying agent in Austria: Erste Bank der oesterreichischen Sparkassen AG, Am Belvedere 1, A-1010 Vienna. Refer for more information on the fund to the latest prospectus, annual and semi-annual reports as well as the key investor information documents ("KIID"). These documents may also be downloaded from the website at www.tareno-globalwatersolutionsfund.ch. The KIID is available in French and can be obtained from the financial and central administration agent in France: BNP Paribas Securities Services S.A., 3, Rue d'Antin, F-75002 Paris. The fund is authorized to the commercialization in France since 08/08/2014. Refer for more information on the funds to the Document d'Information Clé pour l'Investisseur (DICl). The funds authorized for distribution in the United Kingdom can be viewed in the FCA register under the Scheme Reference Number 620373. The KIID can be obtained in English from the facility agent in Great Britain: Carne Financial Services (UK) LLP, Suites 1.15 - 1.16, 1st Floor, 5 Old Bailey, London EC4M 7BA. In Spain, funds authorized for distribution are recorded in the register of foreign collective investment companies maintained by the Spanish CNMV (under number 1268). The KIID can be obtained in Spanish.
