Vontobel Fund - TwentyFour Absolute Return Credit Fund HI (hedged), EUR

Marketing document for institutional investors in: AT, CH, DE, ES, FI, FR, IT, LU, NL, NO, SE, SG (professional investors)

Investment objective

This bond fund aims to achieve a positive absolute return over a period of three years by keeping a modest level of volatility, while respecting risk diversification.

Key features

The fund can invest worldwide, with a focus on Europe, in corporate bonds and similar fixed-interest and floating-rate securities in various currencies of diverse issuers of good quality (investment grade). The fund can use derivative financial instruments for hedging purposes.

Approach

The experienced and diverse investment team takes high-conviction decisions based on rigorous macro-economic, technical and issuer analyses. In line with their continuous assessment of market conditions and future developments, the team allocates interest-rate and credit risks with the aim to benefit from any market environment. They select those securities and instruments within the investment universe in which they see the most rewarding yield and/or hedging values. The team actively adapts the portfolio to invest in attractive opportunities whenever they occur while keeping risks under control.

Sector breakdown (%)**Risks**

- Limited participation in the potential of single securities.
- Success of single security analysis and active management cannot be guaranteed.
- It cannot be guaranteed that the investor will recover the capital invested.
- Derivatives entail risks relating to liquidity, leverage and credit fluctuations, illiquidity and volatility.
- Interest rates may vary, bonds suffer price declines on rising interest rates.
- High-yield bonds (non-investment-grade bonds/junk bonds) may be subject to greater market fluctuations, risk of default or loss of income and principal than higher-rated bonds.
- The Sub-Fund's investments may be subject to sustainability risks. The sustainability risks that the Sub-Fund may be subject to are likely to have an immaterial impact on the value of the Sub-Funds' investments in the medium to long term due to the mitigating nature of the Sub-Fund's ESG approach.
- The Sub-Funds' performance may be positively or negatively affected by its sustainability strategy.
- The ability to meet social or environmental objectives might be affected by incomplete or inaccurate data from third-party providers.
- Information on how environmental and social objectives are achieved and how sustainability risks are managed in this Sub-Fund may be obtained from Vontobel.com/SFDR.

Glossary

Duration (Modified Duration)Duration is an indication of how much a bond's price could be affected by a change in interest rates. **Management Fees** a fee which covers all costs relating to possible services rendered in connection with investment management and distribution. Please refer to the fund's prospectus for a complete description. **NAV**The Net Asset Value (NAV) represents the value per share. It is calculated by dividing the total net asset value of the fund (the value of the fund's assets less its liabilities) by the number of shares outstanding. **Ongoing charges**Expresses the sum of the costs of running a fund on an ongoing basis, like management fee and various legal and operating costs. It is calculated retroactively over a period of 12 months as a percentage of the fund assets. When insufficient data is available, Ongoing Charges may be estimated using data of funds with similar characteristics. **Volatility**Volatility (or risk or standard deviation) is an indicator of the range of fluctuation of the annualized performance of a fund over a certain period. **Yield to Worst**The lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making worst-case scenario assumptions on the issue by calculating the returns that would be received if provisions are used by the issuer.

Important information
