Vontobel Global Equity Fund

Institutional:VNGIX A:VNGAX Y:VNGYX

INVESTMENT OVERVIEW

The Fund aims to provide strong returns over a market cycle with considerably less business risk than the global equity markets. The Fund follows an active stewardship strategy through direct engagement with companies and a voting policy. The Fund aims to participate in rising markets and protect capital during declining markets.

KEY FEATURES

The Fund invests across both developed and emerging markets. It seeks to invest, at sensible prices, in a concentrated portfolio of stocks of high quality growth companies. These should exhibit relatively stable and predictable earnings growth that can be sustained for extended periods.

Investing in mutual funds involves risk, including the possible loss of principal. Investors' shares, when redeemed, may be worth more or less than their original cost. There is no assurance the investment objective of any fund will be achieved. The Fund is subject to price volatility over short or extended periods of time. International investing can be more volatile and have lower overall liquidity than investments in U.S. securities and may lose value because of adverse local, political, social, or economic developments overseas, or due to changes in the exchange rates between foreign currencies and the U.S. dollar. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. As an actively managed fund, the Fund is subject to management risk. There is no assurance that investment objectives will be achieved. Please refer to the prospectus for more detailed information regarding these and other risks.
