Investment Case

The investment theme water is based on long-term structural developments such as population growth, climate change, urbanization and technological change. These inescapable global megatrends offer increased opportunities for companies positioned along the water value chain to achieve growth above world GDP.

Investment Objective

This Sub-Fund has sustainable investment as its objective which consists of investing in water-sector companies worldwide complying with Environmental, Social and Governance (ESG) criteria set by the Investment Manager and aims to achieve capital growth.
