Vontobel Fund - EURO Corporate Bond AI, EUR

Morningstar Rating as of 31.07.2021 ★★★★★

Marketing document for institutional investors in:
AT, CH, DE, GB, IT, LI, LU, SG (professional investors)

Investment objective

This bond fund aims to generate steady income and achieve above-average investment returns over a full credit cycle, while respecting risk diversification.

Key features

The fund invests mainly in developed-market corporate bonds of issuers of good quality (investment grade) denominated in euros. These bonds have different maturities and seniorities. Their issuers are from different industries and have various credit ratings. The focus is on the rating segment in which credit spreads compensate adequately for the risks involved, namely the mid-yield segment (ratings A+ to BBB-). The fund uses derivative financial instruments, mainly for hedging purposes.

Approach

The seasoned investment specialist team applies a dedicated credit-selection style and takes investment decisions based on fundamental credit, relative-value, and technical analyses. Top-down assessment of both the economy and various industries is followed by bottom-up company analysis. Through a filtering process, the team identifies industries and investable corporate bonds whose credit spreads compensate adequately for the risks involved. For efficient diversification, the team strives to hold a variety of issuers and instruments with a view to exploit inefficiencies

Portfolio management	Mondher Bettaieb / Claudia Fontanive-Wyss

Risks

- Limited participation in the potential of single securities.
- Investments in foreign currencies are subject to currency fluctuations.
- Success of single security analysis and active management cannot be guaranteed.
- It cannot be guaranteed that the investor will recover the capital invested.
- Derivatives entail risks relating to liquidity, leverage and credit fluctuations, illiquidity and volatility.
- Interest rates may vary, bonds suffer price declines on rising interest rates.
- Mid-yield bonds may be more speculative investments than bonds with a higher rating due to higher credit risk, higher price fluctuations, a higher risk of loss of capital deployed.
- The Sub-Fund's investments may be subject to Sustainability Risks. Information on how sustainability risks are managed in this Sub-Fund may be obtained from Vontobel.com/SFDR.

Glossary

Benchmark: An index that is used to measure the performance of an investment fund with the purpose of tracking the return of such index or of defining the asset allocation of a portfolio or of computing the performance fees. **Beta:** A measure of sensitivity - given as the average percentage change in the price of a fund when the market (benchmark) rises or falls by 1%. A value over (under) 1 means that on average the fund exhibits more (less) volatility than the benchmark. The figure is calculated on a 3-yearly basis. **Duration (Modified Duration):** Duration is an indication of how much a bond's price could be affected by a change in interest rates. **Effective Duration:** Is a measure of the potential impact on a bond or portfolio price of a 1% change in interest rates across all maturities. **Hedging:** Where a Class of Shares is described as hedged ("Hedged Share Class"), the intention is to hedge the Net Asset Value in the Reference Currency of the Sub/Fund into the Currency of the Hedged Share Class. **Index:** Is a characteristic portfolio considered representative of a particular market or a portion of it, and serves as a performance measurement for such a market. An index, or combination thereof, used as reference for performance comparison, is then called "reference index". **Information ratio:** The information ratio (IR) is a ratio of portfolio returns above the returns of a benchmark to the volatility of those returns. **Jensen's Alpha:** Yield indicator. If the average return on a security or portfolio is larger than its expected return, the alpha is positive. If the average return is smaller than expected, the alpha is negative. **Management Fee:** Is a fee which covers all costs relating to possible services rendered in connection with investment management and distribution. Please refer to the fund's prospectus for a complete description. **NAV:** The Net Asset Value (NAV) represents the value per share. It is calculated by dividing the total net asset value of the fund (the value of the fund's assets less its liabilities) by the number of shares outstanding. **Ongoing charges:** Expresses the sum of the costs of running a fund on an ongoing basis, like management fee and various legal and operating costs. It is calculated retroactively over a period of 12 months as a percentage of the fund assets. When insufficient data is available, Ongoing Charges may be estimated using data of funds with similar characteristics. **Performance Fee:** The payment made to an Investment Manager if certain performance levels are achieved (often over and above any levels set out in the investment objective) within a set time period. Please refer to the fund's prospectus for a complete description. **Sharpe Ratio:** The Sharpe ratio indicates the additional reward per unit of risk compared to a risk-free investment. It reveals how much performance was achieved at what level of risk. **Tracking error:** Measure of the deviation of the return of a fund compared to the return of a benchmark over a fixed period of time. Expressed as a percentage. The more passively the investment fund is managed, the smaller the tracking error. **Volatility:** Volatility (or risk or standard deviation) is an indicator of the range of fluctuation of the annualized performance of a fund over a certain period. **Weighted Average Coupon (WAC):** The coupon is the annual interest rate paid by a bond issuer on the face value of the bond. **Yield to Maturity:** The rate of return anticipated on a bond if it is held until the maturity date. **Yield to Worst:** The lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making worst-case scenario assumptions on the issue by calculating the returns that would be received if provisions are used by the issuer.

Important information

This marketing document was produced by one or more companies of the Vontobel Group (collectively "Vontobel") for institutional investors for distribution in AT, CH, DE, GB, IT, LI, LU, SG (professional investors).

This document is for information purposes only and does not constitute an offer, solicitation or recommendation to buy or sell shares of the fund/fund units or any investment instruments, to effect any transactions or to conclude any legal act of any kind whatsoever. Subscriptions of shares of the fund should in any event be made solely on the basis of the fund's current sales prospectus (the "Sales Prospectus"), the Key Investor Information Document («KIID»), its articles of incorporation and the most recent annual and semi-annual report of the fund and after seeking the advice of an independent finance, legal, accounting and tax specialist.

This document is directed only at recipients who are institutional clients, such as eligible counterparties or professional clients as defined by the Markets in Financial Instruments Directive 2014/65/EC ("MiFID") or similar regulations in other jurisdictions, or as qualified investors as defined by Switzerland's Collective Investment Schemes Act ("CISA").

The investments underlying this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Past performance is not a reliable indicator of current or future performance. Performance data does not take into account any commissions and costs charged when shares of the fund are issued and redeemed, if applicable. The return of the fund may go down as well as up due to changes in rates of exchange between currencies. The value of the money invested in the fund can increase or decrease and there is no guarantee that all or part of your invested capital can be redeemed.

Interested parties may obtain the above-mentioned documents free of charge from the authorised distribution agencies and from the offices of the fund at 11-13 Boulevard de la Foire, L-1528 Luxembourg. Refer for more information on the fund to the latest prospectus, annual and semi-annual reports as well as the key investor information documents ("KIID"). These documents may also be downloaded from our website at vontobel.com/am, the representative in Switzerland: Vontobel Fonds Services AG, Gotthardstrasse 43, 8022 Zurich, the paying agent in Switzerland: Bank Vontobel AG, Gotthardstrasse 43, 8022 Zurich, the paying agent in Germany: the paying agent in Germany: LBBW Landesbank Baden-Württemberg, Große Bleiche 54-56, 55116 Mainz, the paying agent in Liechtenstein: Liechtensteinsche Landesbank AG, Städtle 44, FL-9490 Vaduz, the paying agent in Austria Erste Bank der oesterreichischen Sparkassen AG, Graben 21, A-1010 Vienna.
